Average Customer Spending by Age Group and Gender

Compares average total spending per customer across age groups, segmented by gender. Highlights differences in customer spending and helps identify higher-spending demographic segments.

Orders by State.

Compares the total number of orders placed by customers across states to identify locations contributing the highest purchase volume.

State and Customer Tier Summary

Compares customer counts, total orders, and total spending across states and customer tiers to identify the segments contributing most to purchase activity. With no filters applied, the overall customer count should be 40,000.
